THUNDERBOLT

DEDICATION

In back of every educational system there must be a group of supporters who are willing to give of their time and money, in an all out effort to help that institution convey to its students a devotion to the ideals of honesty, integrity, and service, the tools of community building and living.

This group is our community; our parents, who have clothed, fed, and protected us; our ministers, who have helped develop our spiritual life; our faculty advisors, who have given to us their knowledge; and our merchants, who have donated supplies and services for our use. All these, and many others form a living community which has stood staunchly behind our school through all the years of its existence, guiding and cheering us ever onward toward new goals.

We are now at the end of our Senior year. The days of individual opportunity lie ahead of us. The days in which we could work together for our school and community have passed. As a class, we will probably never assemble again within these walls.

But, in grateful appreciation for what it has done for us, we, the graduating class, dedicate this, our last accomplishment--the 1952 THUNDERBOLT--to our Community.

The Old Home Town

My shadow and I are really pals
For miles we have traveled together;
He isn't the sunshiny kind of a friend
But is with me in all kinds of weather.

Once in a while we have a serious talk
About the affairs of the day;
Or then we just reminisce for a spell.
Only last week to me he did say:

"Pard, remember the good times we used to have
On our way back and forth to your school,
The cornfields we passed in the old school bus
And the time we both played April Fool.

"Those were the good old days", he said,
"And of them I just love to tell.
How about the long hike down thru' Hobo Valley
And a stop for a drink at the Well.

"Ha! Ha!", he chuckled and nearly split his sides
'Bout the day we ne'er told a soul
But slipped away during the noon recess
For a dip in the old swimmin' hole.

I wonder how long the Old Mill will stand
And if more boys and girls there still wait
On the Salamonie banks with fish-poles in hand
And on the ground by their sides lots of bait.

It wouldn't be fair if I failed to mention
The "Hub" of our town hard to beat
Those who bought tickets, attended our plays
The proprietors on our busy Main Street.

As long as you live, I'll never forget
Those hours in the factories at work. .
But this one motto, I know we both learned
"Keep the community growing - don't shirk!"

In matters of religion, most fortunate are we
The choice of a church, make with ease.
Isn't it wonderful, pal, to be able to say
We can worship anyway that we please.

By this time my shadow was becoming tired
And stifling a yawn, he lay down
To dream of the past days long since gone
And the bright future of our thriving Home Town.

SENIOR SECTION

1952 CLASS HISTORY

Chapter 1940--In a small classroom at Warren High School twenty-seven small but eager students were put on the Highway called "Education" by an able guide, Miss McCord. After eight months of travel, the students came to a sideroad known as "Vacation" and all went merrily on their way, only to return the following year as second graders.

Chapter 1941--We began the second lap of our journey under the leadership of Miss Robinson. Having gained four and lost four, twenty-seven finished the second grade.

Chapter 1942--Twenty-three members enjoyed the third course of our journey, being taught the qualifications of a third grader by Miss Click.

Chapter 1943--The road was beginning to broaden under the direction of Miss Wall, and all twenty-five of us were very eager to climb to the greater heights of the fifth grade.

Chapter 1944--Miss Goodmiller was appointed as our fifth grade guide. This year there were twenty-four travelers.

Chapter 1945--When we, twenty-six, members were pronounced sixth graders, it was all Mrs. Dunwoody could do to convince us there was more to learn during the last year of our journey in the grades.

Chapter 1946--We twenty-seven tourists came to a small mountain known as Junior High. We decided we needed more organization in our small band because our journey was becoming more complex. We found that our Chief Guide was Mr. Earl Williams. Also the class elected Gene Brauchla as Co-Guide; Robert Stucky assistant Co-Guide; Suzanne Slater as Itnerary Recorder and Trip Treasurer.

Chapter 1947--After a few months of rest, we began to ascend the mountain as eighth graders electing Ronnie Moore as Co-Guide; Suzanne Slater, assistant Co-Guide; Janet Williams as Itnerary Recorder and Trip Treasurer. To add to the interest of the trip, we had two class parties. Counting four gained and three lost, we finished the eighth grade with twenty-eight members.

Chapter 1948--It was a great day when we twenty-eight freshmen passed at the famed boundary line into the territory known as High School. At this time, we adorned ourselves with the name, "The Class of 1952". Again we elected our trip advisors, -Robert Stucky as Co-Guide; Gene Brauchla as assistant Co-Guide; Kathern Buzzard as Itnerary Recorder; and Ronnie Moore as Trip Treasurer. At first we had trouble getting used to the new territory--(especially with upper classmen dressing us up like lunatics, and treating us in the same manner, and calling it Freshmen initation). One of our money making projects was to keep the traditional checkroom, and our funds began to grow.

Chapter 1949--After finishing the first course of travel in the high school territory it was again time to elect new trip advisers. Robert Stucky was elected Co-Guide, Janet Williams as assistant Co-Guide, Kathern Buzzard as Itnerary Recorder, and

Chella Heaton as Trip Treasurer. To better our financial condition the class took on the responsibility of selling magazines. Also we gave a skating party, and our trip treasury grew by leaps and bounds.

Chapter 1950--We twenty-five journeymen worked the year around with our concession stand, selling popcorn for the first time. Also on the nights of March 7th and 8th, we gave the smashing hit "Clementine". Very weary from labor and with sufficient funds, we decided to take our long sought for Senior Trip. On the morning of May 5th, we climbed the steps of the Miller's Tour bus which carried us to Washington, New York, and many other interesting places.

Chapter 1951--Now the road was becoming shorter and shorter. We twenty-one seniors were entering the last laps of our journey. Our hearts and souls went into our work, confident that this would be a year to remember. The first project we took upon ourselves was the annual. It seemed like a mighty barrier to be overcome because we wanted to leave it as a great landmark along this road which we so proudly had traveled. Along with the annual came the Sales of Christmas cards, then the class play, and many other minor events, but important to us.

Now as we look forward on the Highway called High School Education, we begin to see the end of the road. So we, the members of the class of 1952, will have to dissolve our common ties and alone seek the highway by which we are to reach our goal--"Success". But before we begin our new journey, we pause to take our last glimpse of Warren High School and to leave this request to all forecoming seekers of wisdom--"Keep the banner of Blue and White flying high."

Finally her mother cracks down and says she must start having dates. So she decides to take Hank, a football hero, to Cathy's party but Hank goes with Cathy instead. Then she gets even by beating Hank in an oratorical contest. And in the same night she insults Miss Pringle, an old maid, who almost causes her father to lose the election. But in the end she reforms and makes Miss Pringle admit she was wrong and wins Hank from the persuading Cathy, All turns out well in the lively and laughable play about Clementine.

The Class of '52 started on our Senior Trip at 6:00 A.M. Sat. morning, May 5, 1951.

The day of May 5 was spent mostly in crossing country, our first evening being spent in the Pittsburgher Hotel, Pittsburgh, Pennsylvania.

This night we spent in Washington.

MT. VERNON

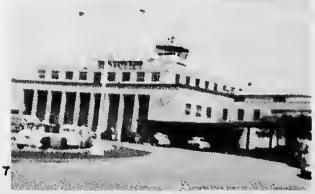
The fourth exciting day, we ate at Philadelphia and visited Independence Hall and Betsy Ross' Home. We passed through a corner of Maryland, New Jersey, and Pennsylvania to find ourselves in New York City in front of the Shelton Hotel.



SECOND LARGEST AIRPORT

May 9, 1951, found us on a boat seeing Manhattan Island from the water. The afternoon was "free" for going to radio programs, seeing ballgames, swimming in the hotel, shopping and doing many other things. We visited Radio City for an evening of good entertainment.

CLASS PROPHECY

MARY EMMA ADSIT has discovered a new serum-Stretch'em Slim'em for fat and short people: 2 tablespoons for slimness, 3 tablespoons for height and 5 tablespoons for both.

Due to the potent 3 tablespoons of Stretch'em Slim'em, BRUCE BARDSLEY has grown to the height of 10 ft. 2 in. Now in this day and age there are glass houses with big shiny domes. Therefore because of Bruce's height he shines these homes.

RUTHANN PRIBBLE BARDSLEY is now at home raising her 12 domeshiners while her domeshiner husband shines domes on homes.

SUZANNE SLATER, now eminent inventor and scientist, has risen to great heights because of her development of the process of canning summer sunshine to be used in the winter.

ROBERT CRISPEN is now captain of the space patrol over the skies of Warren making sure that the hot rod spacers don't exceed the 1500 mile speed limit.

SALLY ECKMAN, Athletic Director at Stevens College, has kept Earth leading in the I.P.A.A., Inter-Planetary Athletic Association.

ERMA CHOPSON is now a missionary to Mars, spreading the Christian Religion in hopes of promoting Inter-Planetary peace.

ROBERT STUCKY, now president of Purdue University, ----during his leisure time tills his small farm of 3000 acres with his Allis Atomic tractor.

LINDA LAYMON is painting the Clouds with sunshine.

JERRY WILLIAMS is now manager of the delivery boy department in the Super Duper Sanitary Market.

BEVERLY GOODMAN now relaxes in her push button home.

Flash ! RONALD BRINNEMAN, the escaped convict, has stolen the sun !

RONALD MOORE is now running Moore's Mortuary where the corpse is low, but the spirits are high.

CYNTHIA GOOD now drives her father's armored rocket, carrying money loans to other planets.

KATHERN BUZZARD is now head matron of the Royal Order of the Misses That Have Been Missed. In other words an old maid's society.

CHELLA HEATON, after completing 25 years in the complex study of Atomic Art on Mercury, has returned a sophisticated lunatic.

ESTHER WILCOXSON, a famous can-can dancer now works in Billy Rose's Uranium Horse Shoe.

WAYNE JACKSON-better known as "Jolly Joltin' Jackson"-has now captured the universal heavy weight wrestling title. This was witnessed by Earth on the 50 inch Radar Vision Screen.

GENE BRAUCHLA is collaborating with Ronnie Moore in establishing Brauchla's Butchery, a robot controlled surgical hospital, which was established next to Moore's Mortuary to save shipping costs.

JANET WILLIAMS BRAUCHLA has a more difficult time than her husband, because she can't wind her robots up or turn them off.

JANE ELTZROTH, now famously known as Madame Flutterby, is touring the world as a famous opera star. Her theme song is, "Come on a' My House."
